Painting & Drawing

2D workshops draw, paint, collage with a variety of media (watercolor, acrylic paint, ink, pencil and recycled paper materials), anything that can be applied to a 2D surface.

Sculpture

3D workshops create sculptural objects in the round. They have depth as an added dimension and exist as built objects. The media used can be found objects, recycled bottles, cans and paper, wood, metal, papier maché, and cardboard.

Ceramics

We will be working with low-fire white stoneware inspired by the weekly themes. Younger students learn basic hand-building techniques and get familiar with clay as a medium. Older or more experienced students can do wheel-throwing under an instructor's guidance.

Weekly guidelines and themes are provided with the course listings, however we remain flexible to the focus of the workshops based on the interests of our students.
